**POWER IN MAKING CONNECTIONS**

**17-19 OCTOBER 2024 · AUCKLAND**

## *You're invited*

We invite you to immerse yourself in the latest cancer breakthroughs and research at the NZSO annual conference. This premier event offers a platform for our community to network, learn and connect.

The three days of conference is made up of Special Interest Group meetings, a range of international and national speakers, symposiums, clinical and scientific oral and poster presentations.

Networking opportunities include a welcome reception and poster session, conference dinner and career networking session. All networking events are included in your registration.

The conference is relevant to all clinicians, scientists and allied health who are providing care for patients with cancer - please join us.

### Theme

The conference theme is  
**Power in Making Connections**

### Award

Roche Translational Cancer  
Research Fellowship Award  
**(\$40,000)**
